CUSTODY AND SECURITY GUIDELINES		

I. DEFINITIONS

"Custody" means the level of staff supervision determined by classification and institutional requirements.

"Reduced custody" means minimum or community custody.

"Security" means the level of structural and physical controls provided by an institution.

II. POLICY and PROCEDURES

This policy establishes guidelines to determine custody supervision and security level placement in order to ensure the safety of the community, staff, and the inmate population.

A. These guidelines shall:

1. Ensure that custody level designations place the inmate in the least restrictive environment suitable to guarantee adequate custody supervision consistent with the inmate's behavior, criminal record, and classification;
2. Require that custody level designations are not imposed as a form of punishment; and
3. Provide that custody level assignments have an objective, behavior-oriented foundation.

B. An inmate shall be assigned to one (1) of six (6) levels of custody by the classification committee as outlined in CPP 18.1. This level of custody shall be assigned based on the risk assessment of the inmate as outlined in the Classification Manual.

The six (6) levels of custody shall be:

1. Community - an inmate with this custody level may qualify for participation in the Community Center Program. If housed in a

2. Minimum - an inmate with this custody level may qualify for participation in programs and work assignments both inside and outside the institutional perimeter. An inmate with minimum custody shall be within forty-eight (48) months of his parole eligibility or minimum expiration date.
 3. Restricted custody - an inmate with restricted custody shall not have more than forty-eight (48) months to his parole eligibility or minimum expiration date. An inmate with restricted custody shall be required to be housed inside the barrier fence of an institution but may be eligible for a work assignment outside the barrier fence of an institution under direct supervision.
 4. Medium - an inmate with this custody level may be eligible for a program or work assignment inside the perimeter of the institution. A medium custody inmate may only work outside the perimeter on institutional grounds under the supervision of an armed officer. Any other movement outside the institution shall be in full restraints. Movement within the institutional perimeter shall be subject to the rules and regulations of the institution.
 5. Close - an inmate with close custody level may participate in selected programs and work assignments inside the perimeter of the institution. All movement outside the institution shall be in full restraints.
 6. Maximum - an inmate with maximum custody level may be permitted participation in selected program or work assignments, as dictated by individual circumstances. An inmate with maximum custody shall be housed in an individual cell unless special circumstances require other housing arrangements. All movement outside the institution shall be in full restraints.
- C. Each institution shall have a primary security level designation. The four levels of security shall be:
